

# DISINFECT PRO

## AEROSOL DISINFECTANT & DEODORIZER

Vapco's Disinfect Pro is an EPA registered, hospital grade disinfectant, deodorizer, and antimicrobial agent designed specifically to eradicate a wide variety of bacteria, viruses and other microorganisms. For HVAC applications, it is ideal for controlling mold and mildew that grow on and around evaporator coils and in ductwork.

Deodorizing these areas help eliminate dirty sock syndrome. Disinfect Pro is designed to sanitize and disinfect any hard, non-porous surface, and leaves a light and pleasant citrus scent behind.

## APPLICATIONS

Disinfect Pro can be used in a variety of settings such as hospitals, nursing homes and other community living centers, schools, daycares, libraries, laboratories, hotels, motels, cafeterias, restaurants, offices, veterinary facilities, gymnasiums, locker rooms and more. It has many applications in a variety industries and environments, including: commercial, industrial, institutional, medical, residential facilities and on equipment and vehicles.

## KEY QUALITIES

- Virucidal
- Tuberculocidal
- Fungicidal
- Bacterial Pseudomonocidal
- Staphylocidal Sanitizes Fabric & Leather
- Controls Mold & Mildew

### EPA Registration Number:

44446-67-6381

### EPA Establishment Number:

44446-TX-1

## FEATURES AND BENEFITS

---

- Viricidal against HIV-1 (AIDS Virus), Herpes Simplex 1 & 2, Avian Influenza A virus (H5N1), H1N1 Influenza A virus
- Bactericidal against Escherichia coli, Pseudomonas aeruginosa, Salmonella enterica, Methicillin-resistant Staphylococcus aureus (MRSA) and more
- Tuberculocidal against mycobacterium tuberculosis bovis BCG (tubercle bacilli)
- Fungicidal against trichophyton mentagrophytes (athlete's foot)
- USDA approved for use in Federally Inspected meat/poultry plants

## INSTRUCTIONS FOR USE

---

### **\*Not for use on Humans or Animals\***

**General:** Shake can well before each use and hold upright while spraying. Pre-clean all large filth prior to using. Do not use where food or related products are prepared, processed or stored. Always remove food and related products from the area being treated. DO not use on waxed or polished surfaces, water based latex paint, shellac, cellulose or other alcohol-sensitive surfaces.

**To clean/deodorize:** hold container upright about 6 to 8 inches away from the surface. Spray all surfaces and allow to air dry.

**To disinfect:** Pre-clean surfaces of large contaminants before use. Hold container upright about 6 to 8 inches away from the surface. Spray liberally to wet surfaces. Treated surface must remain wet for 10 minutes. Allow to air dry. Rinse all surfaces that come in contact with food such as counters, appliances, tables, door handles, etc. with water after product has dried.

**\*For complete instructions read label on can or usage guide. It is a violation of federal law to use this product in a manner inconsistent with its labeling.**
